

# STONE HORSES

Society Of Rock Magazine listed STONE HORSES as one of the TOP 10 New Wave of Classic Rock Bands to watch and with good reason! They describe the band by saying: "They pull out all the stops with fiery guitar riffs and a heavy hitting sound." Those accolades are incredible but, the band believes it brings more than just bombast and classic sounds.

The band's current single "Free" (Remix) is #36 for the week of 09.22.24 at Active Rock and #34 on the Billboard Rock Radio Airplay chart.

The band's new album "Redemption Chronicles" available everywhere October 25th.
